Elsevier, 2013. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: The Simulation Learning System (SLS) integrates simulation technology into your medical-surgical nursing course with realistic patient care scenarios and supportive learning resources that correspond to your medical-surgical nursing text. SLS offers: targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic health record (EHR); skills drills for perfecting your techniques; post-simulation exercises like charting and concept mapping; and review resources such as animations and text references. Using SLS helps bridge the gap between lecture and clinical to prepare you for the real world of nursing. **STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.** Integrated SimChart EHR lets you document patient care in simulations and skills drills. 51 online medical-surgical simulation scenarios incorporate principles of evidence-based practice as well as QSEN competencies. Skills drills feature mini-scenarios focusing on the application of a single skill to help perfect technique and build clinical reasoning skills Pre- and post-simulation activities reinforce simulation learning and help develop critical thinking.
