Two primary objects were kept prominently in view by those who initiated the project, viz.: - The advancement of the fisheries of the country and the interests of the fishing population resident along our shores, as well as the enlargement of existing knowledge on marine fishes and other living organisms in the waters of the Gulf of St. Lawrence and along the Atlantic coast of Canada. Marine investigations, it must be remembered, have been carried on in our waters by Canadian and foreign workers for nearly seventy years; but the results of the work accomplished by scientific men, including such authorities as the late Sir William Dawson, Dr. J. F. Whiteaves, Professor Ganong, and certain eminent United States biologists, had a far less direct bearing upon the fisheries and fishing industries than would have been the case had a scientific school or Marine Biological Station existed upon our shores. Other countries long ago realized this, and founded and equipped such stations, where biologists have had every facility for attacking the pressing and difficult problems of the deep-sea and inshore fisheries. During my first maritime tour as Dominion Commissioner of Fisheries, I was impressed not only with the desirability of some thorough and systematic investigation into fish life, and marine life generally, in Canadian waters, but also with the absolute necessity for a laboratory, where exhaustive researches could...
