Their author knew New England, not as an onlooker, hut as a partaker of its life, which she shared for more than eighty years. But while she delighted in its manner of speech and all its little daily ways, she saw its life also in the light of a large setting; as a child wandering out into the morning sees its own familiar little places bright with the hopes and adventures of a great world. In these stories meagre, unknown lives, hidden away among the New England hills, narrowed and hampered in many a way, give out their own note of joy and triumph. To one with seeing eyes, who knows what has gone into the making of such lives, and under what great skies all lives dwell they shine out, like the papers in the box labeled signal failures, touched with vitality and beauty, - part of the great heart of things.
