Shiprock ---an 1,800-foot jagged spire of volcanic basalt rising from the desert of northwest New Mexico and known to the Navajo as Tse Bit Ai, or Rock With Wings. It s believed to generate a mysterious vortex of metaphysical energy, which is why Nick Ramis, a freelance writer, comes to investigate. Some distance away is the town of Shiprock, and there he meets Feather Morningstar, a young Navajo girl. It isn t long before Nick and Feather discover that they aren t the only ones interested in the rock--during a nighttime reconnaissance, they spot two unmarked helicopters flying a search pattern. What are they looking for out in the desert? Three local UFO enthusiasts tell them that the choppers are looking for the remains of a flying saucer which has crashed. Nick and Feather are skeptical until they uncover the entrance to a tunnel which appears to lead underneath the rock. If there is an alien spacecraft out there in the desert, can they find it before the government does?.
